Education 🎓

Memorial University of Newfoundland

Bachelor of Science in Computer Science Cumulative Average: 87%

Awards: **Doctor William Boyle Scholarship** 2023-2024, **Dean's Lists** 2020-2023 (top 10% in Faculty of Science)

St. John's, NL

Jan 2020 - Present

Work Experience 🏢

Meddai Medical Inc.

Software Engineer

St. John's, NL

Sep 2023 - Present

- Key contributor to a virtual doctor appointment booking platform, improving medical professional accessibility
- Fostered cross-functional collaboration to devise innovative healthcare access solutions
- Applied Python and Hugging Face technologies for machine learning model development, enhancing platform efficiency
- Employed a suite of technologies (ViteJS, ExpressJS, Firebase) to architect scalable, reliable solutions
- Managed documentation to track project progress and specifications meticulously

Data and Image Analysis Lab

Software Engineering Research Assistant

St. John's, NL

May 2023 - Present

- Containerized the **WIMARS** project using Docker and Terraform to improve deployment time by 70%
- Created technical documentation for faster adaption to new deployment workflow, saving developers 1-2 hours of deployment time
- Implemented an academy feature for the **WIMARS** website to allow organizing training videos and documents for the machine learning annotators and data labellers

MetaCrust Service Ltd.

Cybersecurity Analyst

St. John's, NL

Jan 2024 - Apr 2024

- Spearheaded IoT cybersecurity risk assessment plan development, enhancing system security coverage
- Conducted risk analysis to identify and address vulnerabilities in IoT systems, significantly reducing potential threats
- Implemented strategic mitigation tactics, bolstering IoT environment security against cyber threats
- Utilized OSINT tools, including Google Hacking Database and Malware Bazaar, to improve threat intelligence capabilities
- Played a crucial role in advancing cybersecurity protocols, fostering a proactive cybersecurity culture

Cadence Design Systems Inc.

Software Engineering CO-OP

St. John's, NL

Jun 2022 - Aug 2023

- Developed an RBAC administrator portal for inspectAR, streamlining IT/admin staff user management
- Authored comprehensive documentation to facilitate customer and developer adoption
- Enhanced code efficiency by 40%, optimizing system runtime complexity
- Led Quality Assurance for pre-production builds, identifying and rectifying critical issues before release
- Received **"Pass with Distinction"** for exceptional contribution during the internship

Skills 🛠️

Programming Languages: Go, JavaScript, Typescript, Python, C, Java, Bash
Database Management: SQL, SQLite, PostgreSQL, MongoDB, GraphQL
Frontend Frameworks: HTML, CSS, Sass, Tailwind, Bootstrap, React, Next, Vite
Backend Frameworks: Node, Express, Django, JQuery, Flask
Data Visualization: Matplotlib, Seaborn, Plotly, D3
Networking: Wireshark, Netstat, Nmap, Masscan
Security: Burp Suite, OpenVAS, Metasploit
DevOps: Docker, Terraform, Jira, Jenkins, CI/CD
Cloud: EC2, Lambda, S3, RDS, DynamoDB, CloudFormation, IAM

Projects 📁

Tom's Maze Case ([Try It](#))

Tools: ThreeJs, Vite, Javascript, Git

Description: An innovative game where players control Tom the cat, navigating through challenging mazes to catch Jerry while evading obstacles and outsmarting Spike. Features include dynamic maze environments, character variety, and strategic gameplay.

Spare Spoon ([GitHub](#))

Tools: Flutter, FirebaseAuth, Firestore, Firebase Storage, Open AI, Git

Description: An innovative app that suggests recipes based on available ingredients, aiming to reduce food waste and enhance culinary diversity. Features secure authentication, OPEN AI integration, and recipe customization.

CO2BY ([Devpost](#))

Tools: React, Express, Node, Bootstrap, AWS, Git

Description: HackFrost 3.0 hackathon project to reduce carbon emissions by capturing CO2 from vehicle exhaust and transforming it into a valuable commodity

Ment-NL ([Website](#))

Tools: React, Express, Node, Bootstrap, Heroku, Git

Description: TechNL FWD hackathon project to help mitigate the problem of tech-sector employment shortage by providing mentorship and open source project contribution platform

Certification 📜

Google IT Support Professional Certificate, Coursera
Google IT Automation with Python Professional Certificate, Coursera
Google Hash Code 2021 - All World Rank 2352
